2019

UNIVERSITY PROJECTS

2D GAME

Jun 2024

- Developed a 2D platformer game in Godot, featuring smooth character movement, collision detection, and procedural obstacle generation.
- Created and integrated game assets, including backgrounds, enemies, and collectibles, ensuring optimized performance and visual appeal.

Ai Content Generator (SaaS)

Feb 2024

- Developed an AI Content Generator App using Next.js, React, and TypeScript, integrating Gemini for AI-driven content creation and Clerk for secure user authentication.
- Implemented responsive UI/UX design with Tailwind CSS, enabling users to generate custom content based on input parameters, enhancing practical knowledge in full-stack web development and API integration.

WHITEBOARD

Nov 2023

- Developed a real-time whiteboard sharing application using the MERN stack (MongoDB, Express.js, React, Node.js) and Socket.io for real-time communication.
- Implemented features for collaborative drawing and text annotations, ensuring smooth and synchronous updates across multiple users.

ACTIVITIES

VOLUNTEER WORK

Summer Extravaganza Volunteer

April 2025

- Assisted in planning and organizing the Summer Extravaganza event, coordinating logistics, and ensuring smooth execution of activities.
- Managed registration and provided support to attendees, enhancing their event experience and ensuring a welcoming environment.

UNIVERSITY TECH CLUB

Club Member

- Actively participated in club meetings, workshops, and hackathons, collaborating with peers to develop technical skills and work on innovative projects.
- Contributed to the planning and execution of club events, assisting in organizing logistics and promoting activities to enhance student engagement in technology.

ADDITIONAL

Technical Skills: Python, C++, C, SQL, Javascript, HTML/CSS; Proficient in Java.

Tools and Frameworks: ReactJs, Tailwind CSS

Operating Systems: Windows, Linux(Ubuntu).

Languages: Fluent in English

Certifications: IBM Full Stack Software Developer Professional Certificate
